

# Preflight demo- checklist exercise 2016

Below are the essential things that needed to be corrected in the file to prep it for CMYK printing.

## IMAGES:

1. Logo should be converted to CMYK (in both locations).
2. Replace cover photo with high resolution version.
3. Photo stretched on horizontally on page 3.
4. RGB image on page 7. Convert to CMYK.

## TEXT

1. Overset text in 2 locations. (*see InDesign Preflight Panel*)
2. Spellcheck : correct the spelling of "Sweet" (*Remove an extra e*)

## COLOR

1. Convert 2 PMS colors to CMYK
2. Rename the green spot varnish swatch "spot varnish" (should be the only remaining spot color). Verify that the green spot varnish shape/area is set to "non printing".

## BLEEDS

1. The blue/aqua box that has text "Think big ..." needs to be extended.
2. back page bottom needed to extend.
